

Kitchen Design + Inspiration Guide 2025

**KITCHEN & BATH
CENTER**

kitchennbathcenter.com

from inspiration to installation

Kitchen & Bath Center is Boston leading kitchen renovation showroom, offering an innovative solution for customers renovating their kitchens or bathrooms. Our experienced design team will guide you through your kitchen renovation from the inspiration phase right through to installation of your dream kitchen.

Our turnkey solutions cover everything from flooring and cabinetry to appliances, countertops, lighting, sinks and hardware.

From the design phase to installation and finishing our team will help you to design a space that best suits your budget, home and lifestyle while our project team will help coordinate the entire project for you.

Of course, when auctioning any renovation, it pays to be prepared! The first step of planning your new kitchen, is deciding what styles and looks you like.

Enjoy the designs, tips and advice contained within this guide and [click here](#) to book your free kitchen design consultation with our team.

REVIEWS

Quality products and excellence in service are fundamental to our business. See our reviews on Google

PRODUCT REVIEW

Happy to have found and would definitely use again! Fabiano was professional, knowledgeable, fast and competitive. The product was exactly as I intended and hoped. The pricing was very reasonable. I'm not easy to please with quality of products, but this was a fantastic choice! No need to look further!

Marsha Merchant

I would highly recommend the Kitchen and Bath Center. The process was smooth from start to finish. The owner was responsive to questions and his team was professional and always cleaned up after they were finished. The finished product was even better than expected.

Michael DiRobbio

Fabiano and his team did gorgeous work on my kitchen remodel. From the start, he partnered with me on several design iterations until it was right. We moved the location of the kitchen, and converted the old kitchen into a pantry/office. He was great to bounce ideas off and tried to save me money along the way. It was a complex project on an older home and took a while, but the end result was worth it. I'm thrilled.

Turn your **Dream Kitchen** into a reality reality with these **5 EASY STEPS**

1 BE INSPIRED

Use this inspiration guide and website galleries to shortlist styles and kitchen design features that you like.

2 HAVE A FREE COLOUR CONSULTATION IN OUR SHOWROOM

Allow one of our qualified colour consultants to take you on a showroom tour, where they will introduce you to what the latest trends are, demonstrate the features and benefits of our products, and assist you in selecting your finishes. With a huge range of full kitchens and appliances on display along with the latest European products, there is plenty to see when visiting a Wallspan showroom.

3 HAVE A FREE IN-HOME KITCHEN DESIGN APPOINTMENT

Once you have selected your finishes, one of our experienced designers will visit your home, where they will discuss what you are looking for in your new dream kitchen. They will then work with you to design exactly what will best suit your needs, and your kitchen will come to life with our 3D design studio. We can design, price and organise in one easy appointment.

4 DELIVERY

Once you have decided on your ideal kitchen design, your kitchen is scheduled for delivery at a time to suit you. Our drivers will ensure a hassle-free delivery ready for your installer to start.

5 INSTALLATION

Our focus is to ensure you have a stress-free installation and have you cooking in your kitchen as quickly as possible. In most cases your kitchen is installed within two days (a little longer with stone tops and glass backsplash).

KITCHEN RENO 101

Planning tips

There are many variables in kitchen design so it pays to be organised and able to brief your kitchen designer as best as possible. Make sure you use our handy checklist to prepare for your renovation!

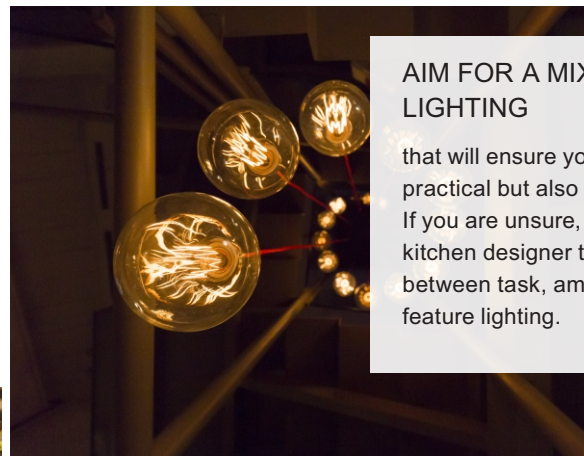

A kitchen renovation can involve any of the following:

- New cabinets and hardware
- New countertops
- New flooring
- New backsplash and tiling
- New walls
- New appliances
- New sinks and faucets
- New lighting
- New services (such as plumbing and electrical)

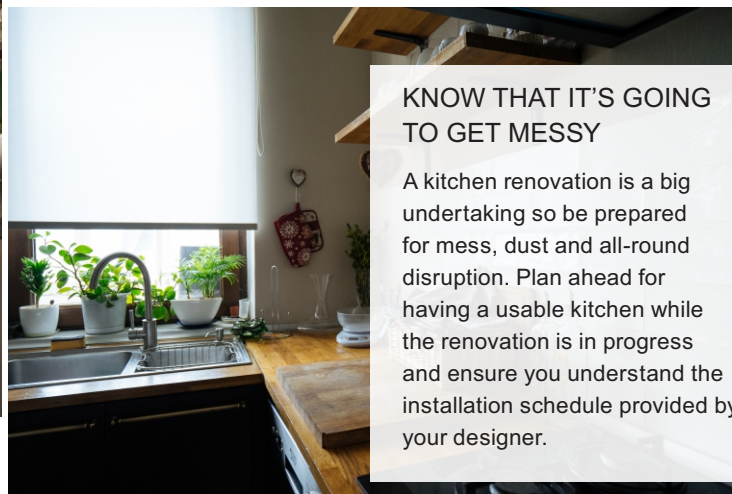

STORAGE IS KING

so make sure your new kitchen design has generous storage for food supplies, utensils, appliances and cookware. Make notes prior to meeting your kitchen designer regarding how you use your kitchen and the storage you might require.

AIM FOR A MIX OF LIGHTING

that will ensure your kitchen is practical but also looks great. If you are unsure, ask your kitchen designer the differences between task, ambient and feature lighting.

KNOW THAT IT'S GOING TO GET MESSY

A kitchen renovation is a big undertaking so be prepared for mess, dust and all-round disruption. Plan ahead for having a usable kitchen while the renovation is in progress and ensure you understand the installation schedule provided by your designer.

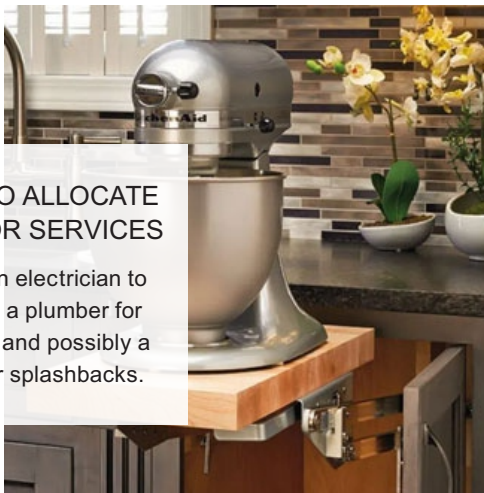

DON'T FORGET FLOORING!

If you change your kitchen footprint or are modernising from a dated design, you will most likely need to update your flooring too.

THINK LONG-TERM

Remember on-trend colours will date over time so aim for a kitchen colour palette that suits your space and objectives, particularly if you are aiming to sell in the future.

REMEMBER TO ALLOCATE MONEY FOR SERVICES

You will need an electrician to connect appliances, a plumber for sinks and tapware and possibly a tiler for flooring or splashbacks.

YOUR KITCHEN DESIGN CHECKLIST

To be able to brief your kitchen designer effectively, start thinking now about your needs, style and budget.

Your Current Kitchen

1 Why are you looking at renovating?
(To modernise, more storage etc)

.....

2 Is there enough storage?

.....

3 Are your appliances functional and in good working order?

.....

4 Does your layout suit your family needs?

.....

5 What sort of flooring do you currently have?

.....

Your Dream Kitchen

1 What sort of space would you like (an entertaining kitchen, a family kitchen, a cook's kitchen etc)

.....

2 What style of kitchen do you like?

.....

3 Are you going to work with your existing kitchen layout or are you happy to change?

.....

4 How much storage do you need?

.....

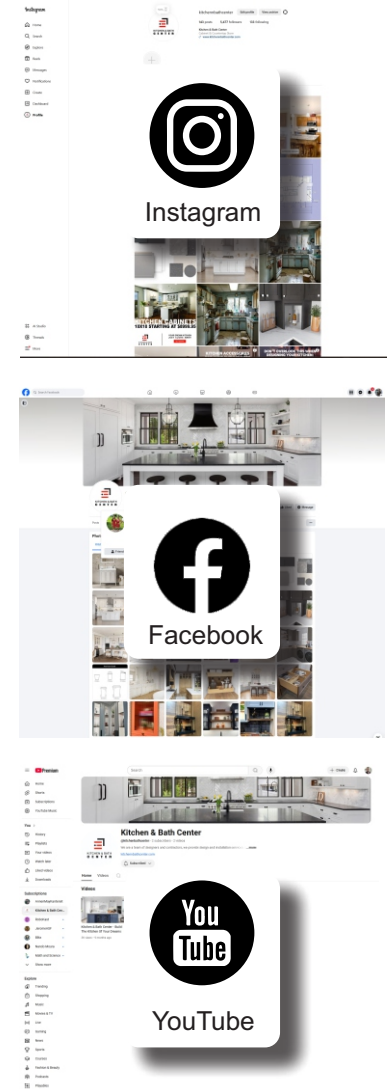

5 What sort of finishes will suit your budget and lifestyle?

.....

6 How much do you wish to spend on your renovation?

.....

Tools for your kitchen Inspiration!

CLASSIC COLOUR PALETTES

Colour palettes revolving around white and neutral shades will continue to be popular with features such as timber and black or copper accents adding interest.

“

Quartz countertops: A popular choice for the past decade, quartz is durable, scratch-resistant, and non-porous

”

A FOCUS ON SINKS

“Gone are the days of the standard stainless steel sink.”

“From black and copper sinks to oversized bowls and clever sink accessories, we are predicting sinks will become a much more important kitchen design feature in 2024.

“When it comes to kitchen sinks though, there are a few things to consider so it’s best to seek out the advice of an expert so you don’t get confused by terminology such as flush mounting, roll edges and seals.

“A kitchen designer will ensure you get the right sink for your countertop and overall design.”

WHAT'S ON TREND?

Our lead kitchen designer, Fabiano Moraes, shares his top five kitchen design trends for would be kitchen renovators.

“

From integrated wine fridges to island benches – the kitchen hub will be high on the renovation list in 2024!

”

CLEVER CABINETRY

Natural wood cabinets: Lighter stains, like white oak with clear finish, are trending.

“Size really doesn’t matter when it comes to your kitchen if it is well-designed, functional and meets the needs of your family.

“Apply the mantra that storage is king in your kitchen. Look to clever technologies on offer by Hafele and Blum to ensure maximum functionality.

“Think corner drawers, under sink pull outs, vertical storage, box drawer systems and user friendly technology such as Blum servo-drive.”

Porcelain

Renovating your kitchen on a budget doesn’t mean you need to sacrifice style.

Says Fabiano “While an engineered stone countertops might be the stuff of dreams, there are some great natural stone available now that will help you to achieve a designer look without the price tag.

“We’re predicting porcelain will be big this year with kitchen renovators looking for an yet stylish look.”

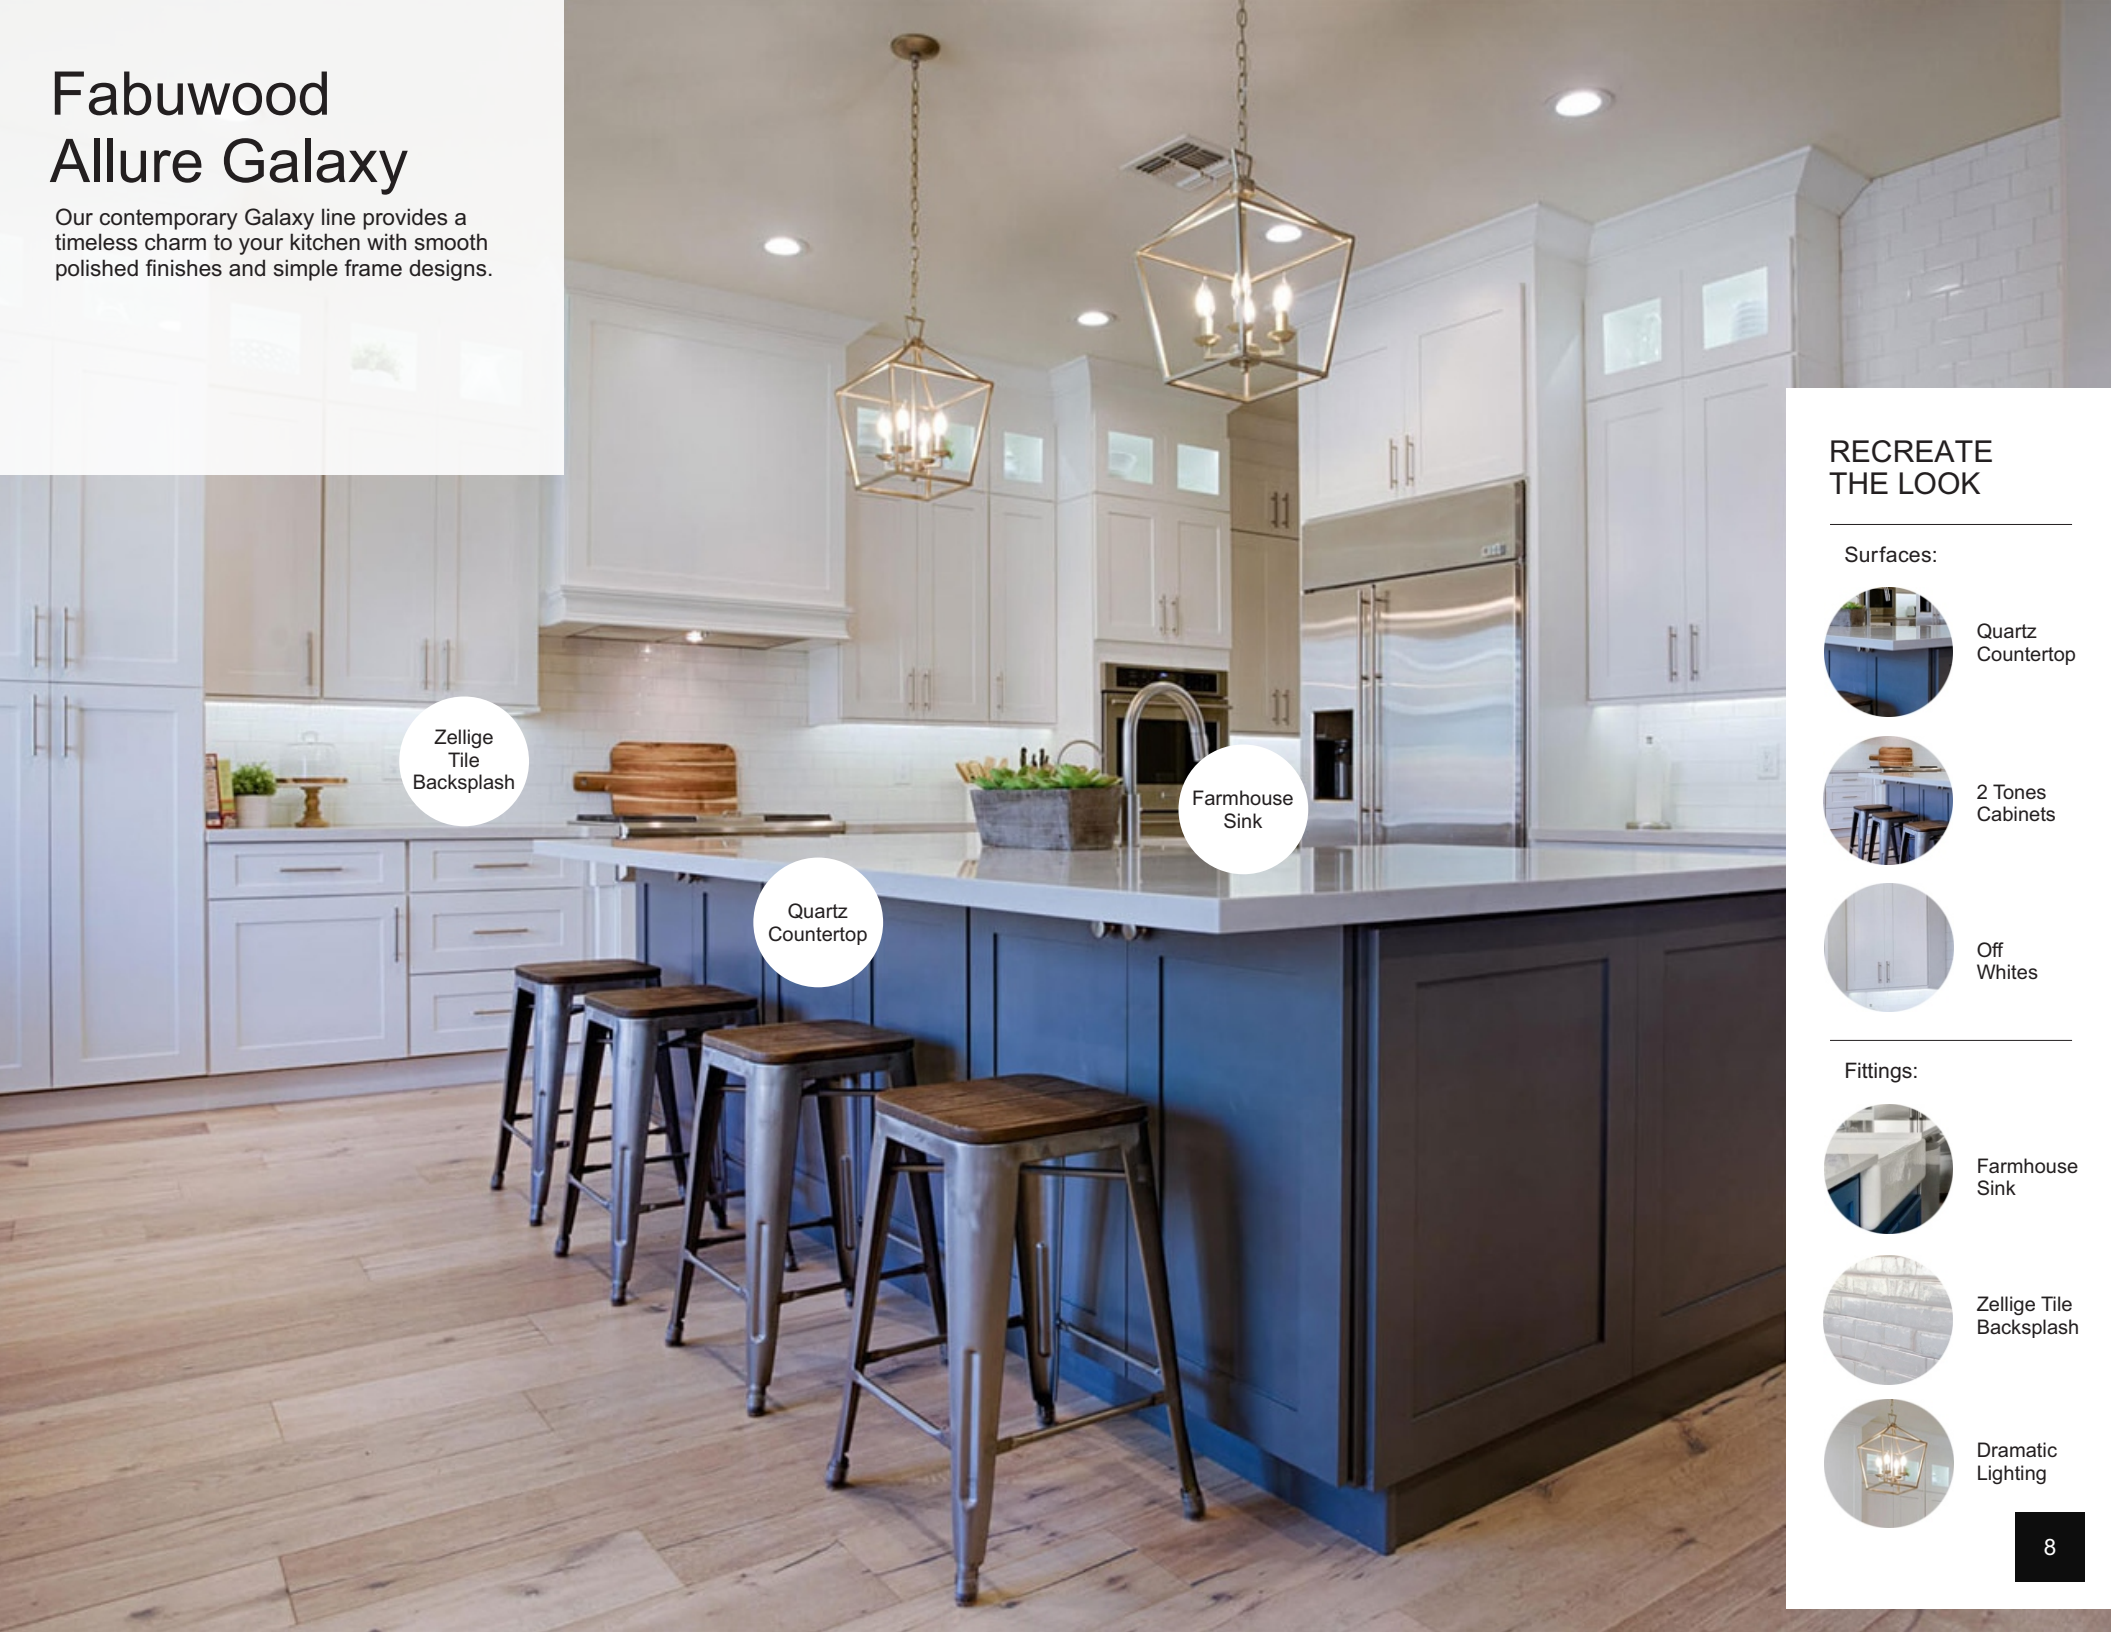

MAXIMISING FOR ENTERTAINING

According to Fabiano the old saying “the kitchen is the heart of your home” has never rung more true.

Fabiano believes renovators are increasingly looking to create a kitchen design that promotes entertaining and social interaction.
